

Water Well Screening

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

The “Well Informed” Texas Well Owner Network (TWON) program is an educational program that gives well owners the opportunity to have their well water samples screened for common contaminants including fecal coliform, E. coli bacteria, nitrates, arsenic and high salinity. The screening of the water samples is followed by a 1-hour explanation of the results, water well protection practices and focuses on wellhead protection and recommendations for remediating well contamination.

Well Informed Screening - April 22 & April 23

- Ector County AgriLife Extension Office: 1010 E. 8th Street, Room 102, Odessa
- Midland County AgriLife Extension Office: 2445 E. Highway 80, Midland
- Pick up sample containers prior to April 22 from above locations
- Sample drop-off 8:30—10:00 a.m. April 22 at above locations
